1610	Lucas	heineken	Briefing 1610 hrs. Lucas → heineken. Discussion regarding the traffic plan for tonight. Shade roads throughout the day. Tonight all heavy trucks will start to be removed by concrete barriers @ 2400 Suggest for this evening - should we look at changing start & end times, need an experienced person as a site commander on the ground. EORT's look at re-assigning their element. Exec wants to change direction & do more enforcement (ie horns noise consider charges). Below pass with marked officer. want tickets tracked. Traffic point @ Nicholas/Laurier leave officers OLS No selfies / food delivery to truckers. DED thru Laurier / Somerset. Food trucks need to have a licence & not parked illegally. Gas delivery truck - still allowing delivery on foot. Emails from OER, people are feeling trapped in the downtown core re groceries, medication etc. Don't feel safe getting out.
